

# Wedding ♥ Day

## Reminders

The day of your wedding is a big undertaking with lots of uncertainties. The best wedding days are spent NOT worrying about the what-ifs at all. Your day should be focused on taking in every single second and making memories that will stick with you for a lifetime! Let me help make that happen...I have photographed hundreds of weddings, here are some wedding day secrets you might not know about...

Here are a few tips that will make things easier for my photography team:

- ♥ 1. If you want a robe, PJ's, or some special getting-ready shots with your bridesmaids, plan on doing that before you start hair and makeup.
- ♥ 2. I suggest that you plan on having your bridal party & Mom be dressing while you are finishing hair and makeup. This way they are ready to help you get ready and can be part of the fun. (This is usually really important to Mom!)
- ♥ 3. If you can manage it, have the hair & make-up team set up close to a window or natural light source so I can get the best out of the light in the room.

**Pro Tip:** Use this handy checklist so you remember to pull together all those special details that tie together the story of this magical day.
